

Brookside Solar Newsletter

Q3 2025

Brookside Solar continues to make significant strides in its development and community engagement efforts. Here are the latest updates:

Project Development: Brookside Solar's development activities continue to steadily progress. The team remains focused on advancing necessary approvals, ensuring compliance, and preparing for upcoming project milestones.

Target Construction Start Date: March 2026

Target Commercial Operation Date (COD): December 2027

Community Engagement

Brookside Solar has actively supported various community initiatives. Recent Social Impact partnerships include over \$50,000 in funding for:

- Wilder Farm: for the purchase and installation of underground geothermal heat pumps.
- Burke Adult Center: for roof renovations, ensuring safe access for seniors.
- Burke Volunteer Fire Department: for the purchase of turnout gear suits.
- Foothills EMS Ambulance Service: for the purchase of a Prometheus Smart Board and related equipment.
